

Re: Remote Learning

Dear: Parent or Guardian

You are receiving this letter to inform you that MCUSD #1 has implemented a new inclement weather program, Remote Learning. Remote Learning is an opportunity for your child(ren) in grades K-12 to complete assignments/activities at home and receive credit for attendance in lieu of having to make the day up at the end of the school year. Students will receive credit for attendance if they return the Remote Learning Sheet with the necessary initials. **Students who do not return the Remote Learning Sheet with the necessary initials will not receive credit for the day of attendance and thus receive an unexcused absence.**

Below you will find two options for your child(ren) to complete if and when we are forced to close school due to inclement weather. After your child has completed the assignment/activity please initial on the line and return the completed form on the next day of school.

To assist with any questions that you or your child will have their teacher(s) and myself will be available via email from 10:30 a.m. until 2:00 p.m..

Please sign and return the form below acknowledging that you have received the packet.

Sincerely,

LaShawn V. Stewart

LaShawn Stewart, Principal
