Multiplication Facts Test

Instructions (optional)

Your Chromebook will be in locked mode for this. It is just multiplication facts.

Do not try to count on your fingers.

I want to know what answers come to your mind immediately.

This is not meant to take you a long time. There are 100 problems, but remember you should be able to do 70 facts in 2-3 minutes. So,- 100 facts should not take you that long.

If you do not know one, it's ok! Guess your best and move on! :)
